

Math Help Websites

This is a list of recommended websites for students to practice math facts. It is recommended that parents be with their children for the first session or two in order to explain the directions and to demonstrate how to use the mouse quickly for these timed games.

<http://resources.oswego.org/games/mathmagician/mathsmulti.html>

offers multiplication practice for 1's through 10's
times for 60 seconds

<http://wwwmultiplication.com/interactive/quickflash/flash/index.html>
